

Sheikh Thasin Rahman Shiplu

Junior Python (FastAPI) & React.js Developer

+8801648289028 | sheikhthasinrahman01@gmail.com | Khulna, Bangladesh | [LinkedIn](#) | [GitHub](#)

CAREER OBJECTIVE

Computer Science & Engineering undergraduate skilled in Python, FastAPI, SQLAlchemy, and React.js, with experience building REST APIs that use JWT authentication and role-based access control. Comfortable with data structures, algorithms, OOP, and deploying full-stack applications. Seeking a software developer internship to build scalable, user-focused products.

SKILLS

- **Languages:** Python, JavaScript, C, C++, SQL
- **Frameworks/Libraries:** FastAPI, React.js (Vite), Tailwind CSS, DaisyUI, SQLAlchemy, Pydantic
- **Technologies/Databases:** MySQL, SQLite, PostgreSQL, JWT Authentication, Role-Based Access Control
- **Tools:** Git, GitHub, Render, Supabase, Swagger UI
- **Core CS:** Data Structures, Algorithms, OOP
- **Soft Skills:** Active listening, Motivation, Leadership, Problem Solving, Communication

PROJECTS

Blood Donation Platform - Donor & Blood Request Management System

[Live Site](#) | [GitHub Link](#)

Backend platform that connects blood donors with patients who need blood urgently, built with FastAPI and SQLAlchemy.

- Donor registration with blood group, city, and availability status, plus tracking of last donation date
- Blood request system with patient and hospital details, units required, urgency level, and request status tracking
- Donation records linking each donor to a blood request
- User accounts with admin/user roles and hashed passwords

Technologies: Python, FastAPI, PostgreSQL, SQLAlchemy, JWT, REST API, Render, Supabase

Library Management System - Full-Stack Library Platform

[Live Site](#) | [GitHub Link](#)

Full-stack platform for managing library users and accounts, with a deployed API.

- Secure user signup and login with token-based authentication
- Password change functionality
- Responsive React interface with toast notifications and context-based auth state

Technologies: Python, FastAPI, PostgreSQL, React.js, Vite, Tailwind CSS, DaisyUI, Render

FastAPI Todo Application - Secure Task Manager

[Live Site](#) | [GitHub Link](#)

Multi-user task manager with a secure backend.

- JWT authentication and role-based access (user/admin)
- Full CRUD for tasks, backed by MySQL via SQLAlchemy ORM
- Interactive API documentation through Swagger UI

Technologies: Python, FastAPI, MySQL, SQLAlchemy, JWT, Swagger UI

EDUCATION

North Western University, Khulna

2025 - present | 2029

B.Sc. in Computer Science and Engineering

EXTRA-CURRICULAR ACTIVITIES

- 1st Award — School Project Competition
- Volunteer Award & Certificate — NWU CSE FEST-2025
- Scout Certificate — Bangladesh Scouts (PSC)
- Volunteer Certificate — School Events (SSC)

LANGUAGES

English: Beginner | Bengali: Native
